UI/UX Designer | Mobile App Developer | Passionate about Human-Centered Design

Recent Information Systems graduate from Umm Al-Qura University with a strong interest in UI/UX design and Applications development. Skilled in Figma, prototyping, and creating user-centered solutions.

EXPERIENCE

Software engineer

Jan 2025 – Present

Rakaya, Makkah

Responsibilities:

- Collaborated with stakeholders to gather and analyze UI requirements for two mobile applications—including [Awwab](#) and 3+ websites, ensuring alignment with business goals.
- Designed user flows, wireframes, and interactive prototypes in Figma, improving design clarity and reducing rework.
- Built and maintained a unified design system across platforms, ensuring **100% design consistency** and faster developer handoff.
- Conducted 5+ usability testing sessions, implementing improvements that enhanced usability scores by **40%**.

UI/UX Designer

Des 2024 – May 2025

RobinFood, Makkah

Responsibilities:

- Created 30+ wireframes and high-fidelity prototypes for the website, customer app, and driver app using Figma.
- Designed wireframes and high-fidelity prototypes for the company website, customer app, and driver app using Figma.
- Conducted usability testing sessions and implemented refinements, optimizing user flow and reducing friction points.
- Collaborated with cross-functional teams to ensure accurate design implementation and maintain UI quality.

Technical and Operational support team

Jun 2024 – Jun 2024

Experts vision consulting (Nusk Card), Makkah

Responsibilities:

- Processed and uploaded data for **50,000+** pilgrims and workers to issue Nusk Cards efficiently.
- Delivered technical support to **5+** service providers during Hajj.
- providing and supporting workshops for the Nusk application for companies providing pilgrims services.

React Native Developer Internship Trainee

Jul 2023 – Aug 2023

First City, Makkah

Responsibilities:

- Designed and implemented **40+** UI components using Figma and React Native CLI.
- Collaborated with backend developers to integrate REST APIs.
- Participated in regular user testing sessions to gather feedback and refine designs.

EDUCATION

Bachelor of Science (B.S.) - Information systems

Aug 2020 - May 2024

Umm Al-Qura University, Makkah

Graduation Project: AI-based application for smart agriculture.

Developing an AI-based application for smart agriculture focused on enhancing farming practices through advanced technology.

- Developed an application with a focus on user-friendly user interfaces.
- Designed the UI for data visualization using Figma.
- Integrated user feedback into design iterations.

SKILLS

Technical: HTML, CSS, React Native, JavaScript, SQL, Java, Python, Power BI, MS Office.

Design: Figma, Wireframing, Prototyping, Adobe XD, Usability Testing, Design Thinking.

Soft Skills: Problem-Solving, Communication, Research, Teamwork, Time Management, Presentation Skills.

LICENSES & CERTIFICATIONS

Meta react native specialization | Coursera

In Progress

Getting Started with AI using IBM Watson | Coursera

2022

Building AI Powered Chatbots Without Programming | Coursera

2022

Introduction to Artificial Intelligence (AI) | Coursera

2022

HONORS & AWARDS

1st place winner as best scientific poster

2024

Umm Al-Qura University

2nd place winner as best graduation project

2024

Umm Al-Qura University
