

Product-Minded Software Engineer | UI/UX & Digital Product Development

Software Engineer with experience across 4+ mobile applications and 5+ websites. Skilled in React Native, Figma, UI/UX, design systems, and translating business requirements into digital products.

EXPERIENCE**Software engineer**

Jan 2025 – Present

Rakaya, Makkah

Responsibilities:

- Contributed to the design and development of **4+ mobile applications and 5+ websites**, translating business requirements into scalable digital experiences.
- Collaborated with stakeholders, product teams, and developers to define UI requirements, user flows, and product experiences aligned with business goals.
- Designed **wireframes, user flows, and high-fidelity prototypes** using Figma from early concepts through developer handoff.
- Built and maintained a **unified design system** across multiple products, improving consistency and streamlining design-to-development handoff.
- Conducted usability testing and iterated on product experiences based on user feedback and observed friction points.
- Worked closely with developers to ensure accurate implementation of designs across mobile and web platforms.
- Contributed to product decisions by balancing **user needs, business requirements, and technical feasibility**.

UI/UX Designer

Des 2024 – May 2025

RobinFood, Makkah

Responsibilities:

- Designed 30+ wireframes and high-fidelity prototypes across customer-facing web and mobile products.
- Conducted usability testing and iterated on user flows to reduce friction and improve usability.
- Collaborated with developers and cross-functional teams to ensure high-quality implementation of designs.

Technical and Operational support team

Jun 2024 – Jun 2024

Experts vision consulting (Nusk Card), Makkah

Responsibilities:

- Processed and uploaded data for **50,000+** pilgrims and workers to issue Nusk Cards efficiently.
- Delivered technical support to **5+** service providers during Hajj.
- providing and supporting workshops for the Nusk application for companies providing pilgrims services.

React Native Developer Internship Trainee

Jul 2023 – Aug 2023

First City, Makkah

Responsibilities:

- Designed and implemented **40+** UI components using Figma and React Native CLI.
- Collaborated with backend developers to integrate REST APIs.
- Participated in regular user testing sessions to gather feedback and refine designs.

EDUCATION**Bachelor of Science (B.S.) - Information systems**

Aug 2020 - May 2024

Umm Al-Qura University, Makkah

Graduation Project: AI-based application for smart agriculture.

Developing an AI-based application for smart agriculture focused on enhancing farming practices through advanced technology.

- Developed an application with a focus on user-friendly user interfaces.
- Designed the UI for data visualization using Figma.
- Integrated user feedback into design iterations.

SKILLS

Development: React Native, JavaScript, HTML, CSS, REST APIs, SQL, Git.

Product & Design: Product Thinking, UI/UX Design, User Flows, Wireframing, Prototyping, Design Systems, Usability Testing, Design Thinking, Figma.

Product & Collaboration: Requirements Gathering, Stakeholder Collaboration, Developer Handoff, Agile/Scrum.

LICENSES & CERTIFICATIONS

Getting Started with AI using IBM Watson | Coursera

2022

Building AI Powered Chatbots Without Programming | Coursera

2022

Introduction to Artificial Intelligence (AI) | Coursera

2022

HONORS & AWARDS

1st place winner as best scientific poster

2024

Umm Al-Qura University

2nd place winner as best graduation project

2024

Umm Al-Qura University
